The goal of the program is to increase the number of migrant students who receive a high school diploma. Credentialed migrant personnel implement the program by enrolling students, receiving the learning activity packets, providing tutorial service when necessary, and administering the tests. Enrollment qualifications are that students must be attending a secondary school and be eligible for migrant educational services; that the students' chances of graduating are unrealistic without counseling guidance and credit accumulation; and that students should be able to work independently with instructional material. The following is a list of P.A.S.S. contacts.
